March 27, 2020

Hello again everyone,

So far, you all have been so understanding about the rapidly changing situations in our school and community, so I hope that you will continue that level of understanding while reading this email. After careful reconsideration, we are going to maintain the original Distance Learning schedule, rather than changing Spring Break. Based on the most current information, we believe it is very unlikely that it will be a safe choice to return to campus before April 20, and we believe that students and teachers will best benefit from the mental and physical break the week directly before returning to school. To be clear this is the schedule as of now:

March 30 thru April 3 Distance Learning

April 6 thru April 9- Distance Learning

April 10 thru April 17- Spring Break

April 20- Campus Learning resumes

Thank you again for your understanding. We are closely following the guidance of local, state, and national agencies, and we are responding with our Hope Academy families' best interest each time a decision has to be made. Please continue to check your email for the most up-to-date information.

With Hope,

Heather Blenden

Head of School
